

# Service Pack S-03

Technical Service at customer site

Preventive Maintenance

**LIMO**  
A Focuslight Company

## Your product benefits:

## | Technical Services |

- Prevention of production down-time
- Early detection of problems reduces the danger of extensive damage later on
- Training of personnel regarding preventative maintenance of the laser / optical system

## Service Description

---

### Practical Work

- Implementation of a complete preventive maintenance procedure on a LIMO product
- Replacement / exchange of service parts, cleaning or replacement of soiled optics, protective glasses, fibres, filters
- Laser power measurement, check / calibration of the laser parameters
- Final inspection of the serviced LIMO product
- Max. time (working hours) at customer site: 8 hours
- Excluding travel and accomodation costs for 1 service engineer

### Conditions

---

On the day of delivery / set-up, the customer is obliged to provide a safe operating area which adheres to the relative laser protection norms / regulations.

The installation area should comply with the specifications set out in the product data sheet.

The customer should ensure that the necessary water and electrical connections are available.

The installation area should be easily accessible, and unpacking / transport aids (e.g pallet-truck) should be made available.

The LIMO service-agent can not be held responsible for damage caused by improper use of software or hardware that is supplied by the customer or other suppliers and used in conjunction with the laser / optical system.

In addition to the terms and conditions for service and maintenance, the general terms and conditions for LIMO Lissotschenko Mikrooptik GmbH, available on [www.limo.de](http://www.limo.de) also apply.
