Service Description

Practical Work

- Un-packing of all delivered items
- Installation and setup of the laser / optical system
- Help and instruction regarding the integration of the laser / optical system into the customers existing system(s)
- Functional test / acceptance test of the complete laser / optical system
- Short introduction / personnel training on the operation and function of the laser / optical system
- Max. time (working hours) at customer site: 8 hours
- Excluding travel and accomodation costs for 1 service engineer

Conditions

On the day of delivery / set-up, the customer is obliged to provide a safe operating area which adheres to the relative laser protection norms / regulations.

The installation area should comply with the specifications set out in the product data sheet.

The customer should ensure that the necessary water and electrical connections are available.

The installation area should be easily accessible, and unpacking / transport aids (e.g pallet-truck) should be made available.

The LIMO service-agent can not be held responsible for damage caused by improper use of software or hardware that is supplied by the customer or other suppliers and used in conjunction with the laser / optical system.

In addition to the terms and conditions for service and maintenance, the general terms and conditions for LIMO Lissotschenko Mikrooptik GmbH, available on www.limo.de also apply.
